⁴ Burial date given as last day of March 1639 but position in BR is after 19 Jan 1639 and before 2 Aug 1640. But prior to 1752 in England, the year began on 25 March (Lady Day). So, in England, the day after 24 March 1642 was 25 March 1643. So not clear whether record means 24 Mar 1639 or 31 Mar 1640.

BR Burials Register

BRT Burial Register Transcript - Registers of the Church of St Editha, Church Eaton, Staffordshire. Baptisms, Marriages, Burials 1538-1812. J E Buckler 1980. ISBN 0 905105 47 8. All entries in table are a transcript from the original registers but where text is not clear BRT is used which is itself a transcript of a transcript held in William Salt Library.

Dates In Sep 1752, England switched from the Julian to the Gregorian Calendar. In order to achieve the change, 11 days were 'omitted' from the calendar - i.e. the day after 2 Sep 1752 was 14 Sep 1752. In addition the first day of the year was changed. Prior to 1752 in England, the year began on 25 Mar (Lady Day). Lady Day is one of the Quarter Days. The Quarter Days divide the year in quarters (hence the name), the Quarter Days being: Lady Day (25 Mar), Midsummers Day (24 Jun), Michaelmas Day (29 Sep), and Christmas Day (25 Dec). So, in England, the day after 24 Mar 1642 was 25 Mar 1643. The Act changed this, so that the day after 31 Dec 1751 was 1 Jan 1752. As a consequence, 1751 was a short year - it ran only from 25 Mar to 31 Dec. Thus in the burial dates above, for example, 25 Jan 1748 is after 2 Dec 1748.
